

Forensic Interviewer Community of Practice

Join our Community of Practice for Forensic Interviewers! This 12-month cohort is designed to deepen advanced forensic interviewing skills, going beyond foundational techniques. Each month, we'll explore current research, apply practical approaches, and review interview segments together using Guardify, the secure digital evidence platform that facilitates best practice sharing and workflow optimization. New cohorts will start in January, April and September.

Prerequisites:

- Completed an NCA approved 40-hour Forensic Interview Course
- Affiliated with a Child Advocacy Center
- Conducted over 100 interviews or at least one year of interviewing experience

If you don't meet these prerequisites, please do not register and pay. Email **FICommunityOfPractice@projectharmony.com** with questions.

> 2026 Topics
